

THE SMARTEST WAY OF TAKING CARE

Every year, poor medical adherence costs to EU 125 billion €. And the life of your beloved ones worth much more.

Our **value proposition** consists in eliminating the tension that every caregiver feels in making sure that the people they care follow strictly their oral pill therapy thanks to our revolutionary device: **Mindy: the Smart Pillbox**. Mindy has 4 main functions:

Mindy can dispense the right pill at the right time.

Mindy will be ringing until the pill is not taken

Mindy will notify the caregiver if the pill has been taken

If the user is out, s/he can take with them ready made pill box'
